KCHD's new Elgin office has plenty of parking, access to public transportation

The Kane County Health Department has moved its Elgin office to a new location at 1750 Grandstand Place. The new location has plenty of convenient, on-site parking and is accessible to public transportation.

The Health Department, now celebrating its 25th anniversary, continues to provide public health essential services after its reduction in staff last November. Public health nursing home visits for first time, high-risk mothers, and environmental health services, such as restaurant inspections, are both provided out of its Elgin office. And the Health Department office in Aurora is still at 1240 N. Highland Ave., houses the majority of its staff providing the full array of disease prevention and health promotion public health services.

Both the Elgin and Aurora offices can be reached by calling (630) 208-3801. The Health Department can also be reached by visiting www.kanehealth.com and clicking on the "contact us" page.
