Canned foods may carry risk of botulism poisoning

The Kane County Health Department is warning consumers not to eat 10 ounce cans of Castleberry's Hot Dog Chili Sauce (UPC 3030000101), Austex Hot Dog Chili Sauce (UPC 3030099533), and Kroger Hot Dog Chili Sauce (UPC 1111083942) with "best by" dates from April 30, 2009 through May 22, 2009 due to possible botulism contamination. Botulism can be fatal. The "best by dates" can be found on the can lids. Consumers who have any of these products or any foods made with these products should throw them away immediately. If the "best by" date is missing or unreadable consumers should throw the product out.

Two children in Texas and an Indiana couple who ate these products became seriously ill and have been hospitalized. No cases have been reported in Illinois.

Symptoms of botulism poisoning can begin from 6 hours to 2 weeks after eating food that contains the toxin. Symptoms may include double vision, blurred vision, drooping eyelids, slurred speech, difficulty swallowing, dry mouth, and muscle weakness that moves progressively down the body, affecting the shoulders first then descending to the upper arms, lower arms, thighs, calves, etc. Botulism poisoning can also cause paralysis of the breathing muscles which can result in death unless assistance with breathing (mechanical ventilation) is provided.

"We encourage any individuals who show these symptoms and who may have recently eaten Castleberry's Hot Dog Chili Sauce, Austex Hot Dog Chili Sauce, or Kroger Hot Dog Chili Sauce should seek immediate medical attention," Health Department Executive Director Paul Kuehnert said.

All of the above products are manufactured by the Castleberry Food Company in Augusta, Georgia. Castleberry has informed U.S. Food and Drug Administration that it is voluntarily recalling all of the potentially contaminated products and is cooperating with FDA, the Centers for Disease Control and Prevention (CDC), and the states' active investigations into the cause of this contamination and scope of the products' distribution.

As of July 18, 2007, four cases of botulism have been reported to the Centers for Disease Control and Prevention (CDC) from Indiana (2 cases) and Texas (2 cases). Onset dates range from June 29 to July 9, 2007. All four persons were reported to have consumed Castleberry's brand Hot Dog Chili Sauce Original. Botulinum toxin was identified in leftover chili sauce collected from a patient's refrigerator.

The Department was notified the recall has been expanded to include additional products:

- Morton House Corned Beef Hash, 15 oz can (UPC7526665830)
- Cattle Drive Chili with Beans, 15 oz can (UPC 3030001515)
- Southern Home Corned Beef Hash, 15 oz can (UPC 0788015360)
- Meijer Corned Beef Hash, 15 oz can (UPC4125095229)
- Castleberry's Chili with Beans, 15 oz can (UPC 3030001015)
- Castleberry's Barbecue Pork, 10 oz can (UPC 3030000402)
- Bunker Hill Chili No Beans, 10 oz can (UPC7526604112)

This recall only affects the products listed above with a "best by" date of April 30, 2009 through May 22, 2009. Castleberry recommends consumers with any questions or concerns about this recall should contact Jamie Leicht of Fleishman Hillard at 1-888-203-8446.
