CLIENT SCENARIO

Enrolled at 8week of gestation into NFP:

Living situation: Client resides with Father of the baby (FOB) and they are officially married. The live in a condominium style home in Elgin IL. The FOB works a lot so client is always alone from 5:00am to 6:00 pm.

Involvement of the father of the baby: FOB is the head of the house. He makes all the decision; He wants visits when he is home, at first I thought it was because client speaks French. I also speak French so I did not understand why we needed to meet at 5:00 pm and he will come home an hour early just to be part of the visit. Very involve FOB. Very involve in visits and educational materials. Client is 33 week pregnant this week and I just got permission to meet with her during the daytime while he is at work.

Strengths: Client understands English very well. Client graduated in Algeria with a degree in teaching languages. Client has quickly pick up conversational English.

Challenges: Client has had issues with insurance during pregnant. I had connected her to all resources and at VNA client is active then at IDHS she is not active. Baby will be here 2-14-2019.

Referrals given: Referred client to the VNA for medical card help. Help given to client by VNA. Now the mum and baby application is at IDHS and it has not been processed.
