Medical Reserve Corps volunteer kick-off meeting scheduled

The Kane County Health Department is excited to announce that we are hosting an informational kick-off meeting for the Kane County Medical Reserve Corps, 9 a.m., Saturday Sept. 16, at the Kane County Health Department, 1240 N. Highland Ave., Aurora, in Suite 23.

MRC volunteers include community members, medical and public health professionals, such as physicians, nurses, dentists, veterinarians, interpreters, chaplains, office workers, retail salespersons and many more. **ANYONE** can volunteer!

The need for a national Medical Reserve Corps (MRC) became apparent after the 9/11 terrorist attacks, when thousands volunteered in support of emergency relief activities, and found that there was no organized approach to channel their efforts. Local responders were already overwhelmed and did not have a way to identify and manage these spontaneous volunteers, and many highly skilled people were turned away. As a result, the MRC was established to provide a way to recruit, train, and activate volunteers. Recent events around the country continue to remind us of the need for trained, organized volunteers to rapidly respond to incidents.

Today, the Medical Reserve Corps is a national network of local groups of volunteers committed to improving the health, safety, and resiliency of their communities. MRC units successfully identify, screen, train and organize volunteers and utilize them to support routine public health activities and augment preparedness and response efforts. The MRC is more than a collection of people looking for ways to give back and volunteer their time to make a difference in their communities. It is a gathering of people across the county, each with specific skills, training and experience that makes them an invaluable public health resource.
