KCHD's annual free well and septic seminars scheduled

Are you a homeowner with a well and/or septic system? Do you know how these systems work? Do you know how to properly care for your well and septic system?

If your answer to one or both of the last two questions is no, please come and join us at the Kane County Health Department's free Well and Septic Seminar for Homeowners.

It's that time of year again—the Kane County Health Department has scheduled its annual free Well & Septic seminar. Due to the popularity of the seminars in the past, a second seminar has been added to accommodate demand.

When:

- Thursday, Sept. 21, 2017.
- Check-in time for the afternoon session is from 2 p.m. to 2:30 p.m., with the seminar beginning at 2:30 p.m.
- Check-in time for the evening session runs from 5:30 p.m. to 6 p.m., with the program beginning at 6 p.m.

Where:

- University of Illinois Extension Office, 535 S. Randall Road, St. Charles.

Due to the program's popularity, we ask that you call ahead and reserve a seat. To reserve your seat, please contact the Kane County Health Department at 630-444-3040. If you reach our voicemail, please leave your name, phone number, address and reason for calling and we will put you on the list.

*One water sample test kit will be given to each household that is supported by well water free of charge.

Please bring all of your questions as a short Q & A session will be held after the presentation.
