Kane County Animal Control to offer 2015 Microchip and Rabies Vaccine Clinics

Now is a good time to take that extra step to protect that special member of your family by having it vaccinated for rabies. Kane County Animal Control will be hosting Microchip and Rabies vaccine clinics for dogs and cats. There will be two clinics this year Wednesday, July 29, and Wednesday, August 26. The clinics will be held at the Kane County Animal Control Facility, 4060 W. Keslinger Road, in Geneva. The clinics will run from 5:30 p.m. until 7 p.m.

We will be offering 1 year rabies vaccines and microchips. No appointment is necessary to take part in this clinic. It is required that all residents of Kane County purchase a registration tag at the time the rabies vaccine is administered. All animals must be controlled on a leash or carrier while at the clinic or waiting to be seen.

Cost:

1 Year Rabies Vaccine and Registration Tag

Neutered \$15.00

Non-Neutered \$30.00

Senior \$5.00

Microchip \$15.00

Remember: Kane County Animal Control still recommends visiting a veterinarian annually for a complete physical and additional health related services. All forms of payment will be accepted. If paying by credit or debit card there will be a 2.45% fee added to your purchase. All owners **MUST** verify that their animal has **NOT** bitten anyone in the past 10 days. An adult, over 18 years of age, **MUST** be present and handle the animal. If your pet requires a muzzle it must be provided by the owner and put on prior to entering the clinic. More information is available at www.kanecountypets.com
